

## Share a Meal, Build Community with Mines Students This Winter Break

Golden United invites Golden-area residents and Colorado School of Mines students to come together over winter break through a simple but powerful act: **sharing a meal.**

Many international students are unable to travel home for the holidays. This program connects them with local neighbors who are willing to open their homes for a warm meal, helping ensure no student goes without food, connection, or a sense of belonging during the break.

Residents can use the link below to sign up to host one or more students for a meal during winter break (December 15–January 11), at a day and time that works best for them. Whether it's a single lunch, a shared dinner, or multiple visits, each meal makes a difference.

**When signing up, please indicate which day between December 15 and January 11 works best for you.**

**What to Expect:**

- Hosts are welcome to offer visits as often as they choose
- No costs should be passed on to students
- Gifts from students are not expected

**For Students:**

- Enjoy a warm, home-cooked meal
- Meet members of the Golden community
- Feel welcomed and supported
- Build a sense of belonging

**For Residents:**

- Share what makes Golden special
- Support students who can't travel home
- Make a meaningful impact
- Strengthen community through hospitality
