## Resource Central's HOA Waterwise Landscape Programs

Would your HOA like to reduce your outdoor water use? Resource Central is teaming up with the City of Golden and the Colorado Water Conservation Board in 2026 to help HOAs turn their turf-covered common areas into beautiful, waterwise landscapes.

Services range from helping your HOA take a deep-dive into water use and coordinate projects to improve efficiency in your sprinkler system, to providing project support and guidance on converting large areas of non-functional turf to water-saving alternatives. Grant funding is available for qualified participants!

The 2026 application is coming soon. For more information and to complete an interest form to receive updates, visit [resourcecentral.org/hoa](http://resourcecentral.org/hoa).
